JSW Steel to Invest up to \$500m in US Facility

Co plans to enhance & upgrade its Ohio-based manufacturing unit Acero Junction

Our Bureau

Kolkata: JSW Steel has said it proposes an investment of up to \$500 million in acquiring, enhancing & upgrading Acero Junction, an integrated steel manufacturing unit with a potential capacity of 3 million tonne per annum (MTPA), located at Ohio in the US.

The company had in March announced plans to pump in \$500 million to modernise its steel plate and pie unit at Baytown, Texas. The latest announcement thus takes JSW's overall investment in the US market, to up to \$1

The proposed investment will be made in two phases at its Ohio steel manufacturing facility, an official statement on Friday said. In phase one, JSW will revamp & restart the electric arc furnace and the slab caster, and modernise the hot strip mill. The proposed investment including

the cost of acquisition, is expected to be approximately \$250 millon. In phase two, depending upon the economic viability & prevailing market conditions, JSW said it will evaluate the possibility of adding another electric arc fur-

PHASE 1 Firm will revamp and restart the electric arc furnace and the slab caster, and modernise the hot

strip mill

PHASE 2 Depending on the economic viability and prevailing market conditions, it will evaluate adding another electric arc furnace at the hot strip mill to make the Ohio facility a fully-integrated unit with 3 MTPA capacity

\$250 million

Proposed

for each

investment

nace (EAF) at the hot strip mill to make the Ohio facility a fully integrated unit with 3 MTPA capacity.

The proposed investment in phase two could be in the range of up to \$250 million, it added. Commenting on the development, Parth Jindal, director, JSW Steel (USA) said, "JSW is pleased bally.

to share its intention for additional investments in the US market. Rich avallability of scrap metal and abundance of natural gas, making steel through EAF route is highly competi-

tive in USA from a global standpoint." JSW Steel's newly acquired Acero Junction Holding's steel manufacturing facility, uses EAF route to produce hot rolled coils. It includes a 1.5 MTPA EAF, a 2.80 MTPA slab caster and a 3.0 MTPA hot strip mill (HSM). The HSM is capable of producing a wide range of steel grades in widths up to 2,000 mm wide and from thickness in the range of 1.5mm-10 mm.

A certificate on the proposed investments by JSW Steel was signed by Wilbur Ross, secretary, US Department of Commerce and Jayant Acharya, director (commercial & marketing), JSW Steel at SelectUSA Investment Summit held at Maryland, outside Washington DC.

Commenting on media reports about its interest for ArcelorMittal's Romania unit, the JSW Group tweeted that it is not currently inclined to bid for any assets which are being disinvested by the Arcelor Mittal Group, glo-

Xiaomi to Copy India Success Story in EMs here were at least three key

CR.Sukumar @timesgroup.com

Hyderabad: Chinese smartphone maker Xiaomi. which has emerged the largest smartphone brand in India within four years, is preparing to replicate the across many global markets key success sutras learnt in Indian market across many emerging markets for similar achievements, said Xiaomi vice-president Manu Jain (in pic).

Jain, who is also Xiaomi India managing director, was in Hyderabad to inaugurate the smartphone maker's 1,000th service centre in India. The Chinese smartphone giant, though recorded phenomenal success in the Indian market to have six manufacturing units in a short span, came under pressure last year to scale back its operations in certain markets such as Braziland Indonesia. Admitting that the firm omi is also evaluating plans

lost focus as it attempted rapid expansion into new products and countries, its founder Lei Jun, in a letter to employees last year, unveiled plans to slow the pace in arnings from India, the bigthose markets and learn from mistakes. Manu Jain viewed that China.

to make televisions locally, he added. Xiaomi wants to make its India success story a big case study and take critical le-

gest and fastest growing market for Xiaomi outside
